

Jill Engel-Cox

Position/Department/Division/Institution/Organization

Director of the Joint Institute for Strategic Energy Analysis (JISEA) at the U.S. National Renewable Energy Laboratory (NREL).

Country

USA

Career history

Over her 30 year career, Dr. Engel-Cox has been an engineer, researcher, program manager, and strategic planner for a diverse suite of renewable and traditional energy, clean technology, and environmental programs in the United States, Asia, and Middle East. In the past decade, she has led international strategic planning and technology assessments for renewable energy and environmental sustainability research programs, working extensively in Malaysia and Saudi Arabia. She also teaches industrial processes and environmental communications courses at Johns Hopkins University Engineering for Professionals Program.
