

Session Title: International Climate Cooperation in Business

Name: Nuki Agya Utama

Position: Executive Director of the ASEAN Centre for Energy (ACE)

Abstract title: International Cooperation in Accelerating ASEAN Low-Carbon Transition

ASEAN energy sector has been working closely with Dialogue Partners (DPs) and International Organisations (IOs) under the framework of ASEAN Energy Cooperation. Such international cooperation has been supporting ASEAN energy sector in various forms. Financial support, consultancy services, capacity building activities and information sharing from the DPs and IOs are among the most important supports for sustainable energy development in Southeast Asia. Best practices and success stories from the DPs and IOs not only as motivation but also provide ASEAN energy policy-makers with insights into global energy development trends. such knowledge transfer is one of the keys in accelerating the low-carbon transition.
