

Sunita Satyapal

Position/Department/Division/Institution/Organization

Director

Hydrogen and Fuel Cell Technologies Office

Office of Energy Efficiency and Renewable Energy

U.S. Department of Energy

Country

USA

Career history

Dr. Sunita Satyapal is the Director for the U.S. Department of Energy's Hydrogen and Fuel Cell Technologies Office within the Office of Energy Efficiency and Renewable Energy and is responsible for \$150 million per year in hydrogen and fuel cell R&D. She has two and a half decades of experience across industry, academia and government, including at United Technologies managing research and business development, and as a visiting professor. She is also the current Chair of the International Partnership for Hydrogen and Fuel Cells in the Economy, a partnership among over 18 countries to accelerate progress in hydrogen. She received her Ph.D. from Columbia University and did postdoctoral work in Applied and Engineering Physics at Cornell University.

Awards/Publications

She has numerous publications, including in Scientific American, 10 patents, and a number of recognitions including a Presidential Rank Award.

Areas of expertise

Hydrogen and Fuel Cell Technologies
