

**Session Title: Renewable Microgrid and Energy Access**

**Name: Akihiko Shirahata**

**Position: Country President Japan, Schneider Electric**

Schneider Electric is the global leader in the Digital Transformation of Energy Management and Automation.

We provide scalable, repeatable, IoT-enabled advanced microgrid solutions, end-to-end services, and innovative Energy-as-a-Service business models. We have the proven approach in over 250 Microgrid projects over 20 years. Our advanced microgrid solution can help you to gain resilience, reduce risk, optimize energy costs and increase sustainability.

Our IoT-enabled platform EcoStruxure™ is embedded in our cloud-connected advanced microgrid solutions, unlocking more value for you. From seamless integration of distributed energy resources to predictive analytics, EcoStruxure empowers you to turn your energy into a strategic business asset.
