

Session Title: Decarbonisation by Industrial Sector

Name: Takayuki Kitajima

Position: General Counsel, Representative Director, Unilever Japan Holdings K.K.

By introducing the activities of making sustainability (including the action to the climate change) in common place in Unilever, to re-emphasize the importance to take necessary business risk and to continue the actions proactively. In addition, to mention that the leadership and transparency are the power to proceed the actions for the sustainability and the business with integrity may enhance corporate reputation and brand equity. Finally, it is the best timing to change for creating brighter future.
