

Session Title: SDGs for business activity

Name: Kanako Fukuda

Position: General Manager, CSR Department, Sumitomo Chemical Co.,Ltd.

Sumitomo Chemical was established based on two missions, which were to solve the problem of pollution by smoke from copper smelting, and to manufacture fertilizer by using the emissions from copper smelting. The Sumitomo Spirit, which says that our business must benefit society as a whole, not just our own interests, is the DNA of the Sumitomo Chemical Group.

The Company's unique sustainability initiatives, "Sumika Sustainable Solutions" and "Sustainable Tree," which utilize the SDGs to encourage our employees and those of our Group companies worldwide to provide more solutions and contribute to achieving the SDGs, will be introduced.
