

**Session Title: Fintech for Climate Change**

**Name: Makoto Goda**

**Position: CEO, Nippon Biodiesel Fuel Co., Ltd. (NBF)**

Nippon Biodiesel Fuel (NBF) has started Agri-Business in Mozambique from 2012. NBF introduced E-Money / E-Voucher system for more than 25,000 rural farmers by collaborating with FAO. NBF has accumulated and analyzed both income and usage data of each farmer. Hence it enables us to provide credit to farmers. NBF has launched new service, called AgriNET. Through the service, we can collect huge data from total supporting for farmers seeding to selling crops. This makes enable us to understand primary problem in each farmer, village, country and understand real time status of climate problem, status of soil, water problems in each situation.
