

**Session Title: Inclusive Action towards a Net-zero Emissions Future**

**Name: Toshiyuki Hata**

**Position: Vice-Governor of Fukushima Prefecture**

After Fukushima had experienced the Great East Japan Earthquake and the following accident at the Fukushima Daiichi nuclear power plant, Fukushima Prefectural Government has set a target to realize covering 100% equivalent of the prefecture's energy demand with renewable energies around the year 2040. To achieve this goal Fukushima Prefectural Government has promoted a lot of projects to build a safe, secure and sustainable expanding society and become a front runner in renewable energies. We would like to introduce "Fukushima's Challenge" to promote introducing renewable energies and fostering and clustering related industries.
