

**Session Title: E-Mobility in Sharing Services and Fleets**

**Name: Toshio Kuroda**

**Position: Executive Officer, General Manager, Office of the President, Yamato Transport Co., Ltd.**

Yamato Transport developed small commercial EV trucks which pursue “low-carbon”, “work-friendly”, and “economic rationality”. We will introduce 500 units of EV since 2019. In this way, we will take the way of new transportation and strengthen last mile service in the future. Through these things, we will commit responsibility as a leading company at logistics industry by solving issues of “environment”, “economy” and “society” simultaneously.
