

Sumire Fujiwara

Position/Department/Division/Institution/Organization

- Senior Researcher, Plant Gene Regulation Research Group, Bioproduction Research Institute, National Institute of Advanced Industrial Science and Technology (AIST)
- Associate Professor (Cooperative Graduate School Program), Graduate School of Life and Environmental Sciences, University of Tsukuba

Country

Japan

Career history

- Associate Professor (2017–present), Graduate School of Life and Environmental Sciences, University of Tsukuba (Cooperative Graduate School Program)
- Senior Researcher (2014-present), Plant Gene Regulation Research Group, Bioproduction Research Institute, AIST
- Researcher (2010-2014), Plant Gene Regulation Research Group, Bioproduction Research Institute, AIST
- Special Postdoctoral Researcher (2009- 2010), Plant Science Center, RIKEN Yokohama Institute
- Postdoctoral Researcher (2008-2009), Plant Science Center, RIKEN Yokohama Institute
- Post-doctoral fellow (2006-2008), Department of Plant Cellular and Molecular Biology, Ohio State University, USA

Awards/Publications

- Encouragement Award from Japanese Society for Plant Cell and Molecular Biology (2007)
- Best Paper Award from Japanese Society for Plant Cell and Molecular Biology (2006)
- Author or co-author of scientific publications related to plant gene regulation, flowering time regulation, plant circadian clock and others.

Areas of expertise

Plant molecular biology, plant biotechnology, plant transcriptional regulation, and flowering time regulation.
