## **Career history**

Marcel Galjee (1976) presides in his role as Director Energy & New Business within Nouryon, formerly known under the name of AkzoNobel Specialty Chemicals, a team of dedicated energy experts, which is responsible for the purchasing, hedging, dispatching and the agenda on energy sustainability & transition. This includes the governmental / regulatory affairs on Energy. Increasingly the team is working on the opportunities in the circular and hydrogen economy, resulting in a strong project business development portfolio.

Nouryon is an international chemical company with energy intensive activities in multiple countries.

Prior to his present role, Marcel worked as an international consultant at PwC within the large energy spectrum and another 8 years in various energy related functions at Vattenfall Sweden, Germany and the Netherlands.
