

Session Title: Industrial Decarbonization

Name: Yoshimitsu Kobayashi

Position: Chairperson, Carbon Recycling Fund Institute

Japanese Prime Minister Abe emphasized that “CO₂ could well be the best and most affordable resource for multiple uses” at the World Economic Forum Annual Meeting on January 23, 2019.

Carbon Recycling Promotion Office was established in Ministry of Economy, Trade and Industry on February 1, 2019. In addition, Roadmap for carbon recycling technologies was published on June 7, 2019.

On August 30, new private institute was established for promoting the carbon recycling in R&D activities and public relations. Background of the establishment and future policy will be introduced.
